## Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

⚡ TRIGGER

### Production forecast updated

FlexiBake generates updated weekly production forecast based on order history and seasonal demand patterns. This triggers the staff scheduling automation process.

2

 ACTION

### Calculate staffing requirements

System analyzes production volumes, product complexity, and delivery schedules to determine required staff hours by department. Factors in baker skill levels and certification requirements for different products.

FlexiBake

BakeSoft

3

 DECISION

### Check staff availability

System reviews employee availability, time-off requests, and labor budget constraints. Determines if current staff can meet requirements or if adjustments are needed.

BakeSoft

4

 ACTION

### Generate optimized schedule

Creates staff schedules that minimize labor costs while meeting production deadlines. Assigns specialized tasks like pastry decoration or bread baking based on employee skills.

BakeSoft

FlexiBake

5

 ACTION

### Assign production tasks

## AI Business OS

Distributes specific baking tasks, prep work, and quality control responsibilities to scheduled staff members. Links task assignments to production orders and timing requirements.

FlexiBake

BakeSoft

6

 ACTION

### Notify staff members

Sends automated schedule notifications and task assignments to employees via mobile app or SMS. Includes shift details, specific responsibilities, and any special instructions.

BakeSoft

7

 OUTPUT

### Publish final schedules

Posts completed schedules to staff portal and integrates with POS system for labor tracking. Creates backup coverage plans for potential call-outs or rush orders.

### Outputs

- Optimized weekly staff schedule

- Individual task assignments by employee

## AI Business OS

### Key Metrics

- Labor cost as percentage of revenue
- Schedule adherence rate
- Production efficiency per staff hour

### Tools & Integrations

- FlexiBake
- BakeSoft
- Toast POS

## AI Business OS

Actionable AI implementation strategies for business leaders ready to transform their operations.
