Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

Milestone checkpoint reached

System detects a child has reached a new age milestone or an educator has logged a new developmental observation. Triggers assessment of current developmental progress.

Brightwheel HiMama

2

 ACTION

Retrieve child development data

Pulls the child's complete developmental history, previous assessments, and current age-appropriate milestone benchmarks. Compiles all relevant tracking information for analysis.

Brightwheel Procare Software

3

 DECISION

Evaluate milestone achievement status

Analyzes whether the child is meeting, exceeding, or falling behind expected developmental milestones for their age group. Determines if intervention or celebration is needed.

HiMama Brightwheel

4

 ACTION

Generate personalized progress report

Creates a detailed report highlighting achieved milestones, areas of growth, and next developmental goals. Includes photos and specific examples of the child's progress.

5

 ACTION

Flag concerns for educator review

If developmental delays are detected, automatically alerts lead teachers and administrators for potential intervention planning. Creates task reminders for follow-up assessments.

Brightwheel

Procare Software

6

 ACTION

Send parent communication

Delivers milestone reports to parents via app notifications and email, including celebration messages for achievements or gentle guidance for areas needing support.

MyKidzDay

7

 OUT PUT

Update child development portfolio

Archives all milestone documentation in the child's permanent record and schedules the next developmental checkpoint. Ensures compliance with licensing documentation requirements.

Procare Software

Brightwheel

Outputs

- Personalized development progress report
- Parent notification with milestone updates
- Educator alert for developmental concerns
- Updated child development portfolio

Key Metrics

- Milestone achievement rate by age group
- Parent engagement with development reports
- Early intervention referral rate
- Documentation compliance percentage
