Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

⚡ TRIGGER

Patient Confirms Surgery Request

Patient confirms their cosmetic surgery procedure and submits scheduling preferences through the patient portal. System captures procedure type, preferred dates, and special requirements.

2

 ACTION

Verify Insurance and Medical Clearance

System automatically checks insurance pre-authorization status and confirms required medical clearances are complete. Validates financial arrangements and payment plans.

Epic EHR

Symplast

3

 DECISION

Assess Surgery Complexity Requirements

AI analyzes procedure complexity, estimated duration, and required equipment to determine appropriate operating room and staffing needs. Routes to standard or specialized resource allocation path.

ModMed Plastic Surgery

NextTech EMR

4

 ACTION

Check Surgeon and OR Availability

System cross-references surgeon schedules with operating room availability and required specialized equipment. Identifies optimal time slots matching patient preferences.

Epic EHR

Cerner PowerChart

5

 ACTION

Allocate Surgical Team Resources

Automatically assigns anesthesiologist, nursing staff, and specialized equipment based on procedure requirements. Blocks necessary pre-op and recovery room time.

Cerner PowerChart

ModMed Plastic Surgery

6

 ACTION

Generate Pre-Operative Instructions

Creates customized pre-operative care instructions and automatically schedules required pre-surgery appointments. Sends patient reminders and preparation guidelines.

Symplast

NextTech EMR

7

 OUTPUT

Confirm Complete Surgical Schedule

Sends comprehensive scheduling confirmation to patient, surgeon, and surgical team with all appointment details, instructions, and resource allocations.

Epic EHR

Symplast

Outputs

- Confirmed surgery date and time

- Complete resource allocation plan

AI Business OS

Key Metrics

- Surgery cancellation rate
- Operating room utilization percentage
- Average scheduling completion time

Tools & Integrations

- Epic EHR
- Cerner PowerChart
- ModMed Plastic Surgery
- NextTech EMR
- Symplast

AI Business OS

Actionable AI implementation strategies for business leaders ready to transform their operations.
