## WORKFLOW TRIGGER

Permit expiration date reaches 90-day advance notice threshold in compliance management system.

## Visual Flow

Each node represents an automated step. Connections show how data and decisions move through the workflow.

## Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

⚡ TRIGGER

### Detect permit renewal deadline

System automatically identifies permits approaching expiration based on predefined advance notice periods. Triggers workflow initiation for permit

2

 ACTION

### Retrieve permit documentation

Automatically pulls current permit details, compliance history, and required renewal documentation from environmental management database.

Compiles baseline information for renewal application.

Enviance

ERA Environmental

3

 ACTION

### Assess compliance status

Reviews monitoring data, inspection records, and violation history to determine permit compliance standing. Generates compliance summary report for regulatory submission.

Locus Platform

ERA Environmental

4

 DECISION

### Evaluate renewal complexity

Determines if renewal is routine based on compliance status and operational changes, or requires enhanced documentation due to violations or facility modifications.

Enviance

5

 ACTION

### Generate renewal application package

Automatically populates permit renewal forms with current facility data and compliance information. Creates complete application package with required supporting documentation.

ERA Environmental

Enviance

6

 ACTION

## Submit to regulatory authority

Electronically submits completed renewal application to appropriate regulatory agency portal. Tracks submission confirmation and assigns tracking numbers.

Enviance

Locus Platform

7

 OUTPUT

## Generate renewal tracking report

Creates comprehensive tracking dashboard showing application status, regulatory response timelines, and next action items. Establishes automated follow-up schedule for permit approval monitoring.

Enviance

Locus Platform

## Outputs

- Submitted permit renewal application

## AI Business OS

- Compliance status report
- Renewal tracking dashboard
- Regulatory submission confirmation

### Key Metrics

- Permit renewal completion rate
- Average renewal processing time
- Compliance violation rate

### Tools & Integrations

- Enviance
- Locus Platform
- ERA Environmental

## AI Business OS

Actionable AI implementation strategies for business leaders ready to transform their operations.
