WORKFLOW TRIGGER

New expense entry is recorded in the event management system

Visual Flow

Each node represents an automated step. Connections show how data and decisions move through the workflow.

Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

⚡ TRIGGER

Expense Entry Detected

System detects a new expense has been logged for an active event. This could be vendor payments, venue costs, catering charges, or equipment

2

 ACTION

Categorize and Validate Expense

AI automatically categorizes the expense by type (venue, catering, AV equipment, etc.) and validates against predefined budget categories. Cross-references vendor information and expense codes.

Cvent

Planning Pod

3

 ACTION

Update Budget Allocation

Real-time calculation updates the remaining budget for the specific category and overall event budget. Recalculates percentage spent and remaining funds across all categories.

Planning Pod

Cvent

4

 DECISION

Check Budget Threshold

Evaluates if the expense pushes any category over 80% of allocated budget or if total event budget exceeds 90% utilization. Determines appropriate response level.

Planning Pod

5

 ACTION

Generate Financial Analytics

Creates updated budget reports with visual dashboards showing spend by category, variance analysis, and projected final costs. Calculates ROI metrics and cost per attendee.

Cvent

Bizzabo

6

 ACTION

Send Stakeholder Notifications

Automatically notifies event managers, finance teams, and relevant stakeholders with budget updates. Escalates alerts for threshold breaches or sends routine status updates.

Cvent

Whova

7

 OUTPUT

Deliver Budget Status Report

Generates comprehensive financial dashboard with current spend, remaining budget, category breakdowns, and variance alerts. Provides actionable insights for budget optimization.

Planning Pod

Bizzabo

Outputs

- Real-time budget dashboard with category breakdowns

- Automated budget threshold alerts and notifications

AI Business OS

- Financial variance reports with spending projections

Key Metrics

- Budget variance percentage
- Cost per attendee tracking
- Category spend allocation accuracy

Tools & Integrations

- Cvent
- Planning Pod
- Bizzabo
- Whova

AI Business OS

Actionable AI implementation strategies for business leaders ready to transform their operations.
