## Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

⚡ TRIGGER

Receive deceased individual intake

Mortuary management system records the arrival of a deceased individual with initial documentation. This triggers the preparation scheduling workflow.

Mortuary management systems

2

 ACTION

## Assess preparation requirements

System analyzes intake data including cause of death, family preferences, and viewing requirements. Determines specific preparation services needed including embalming necessity.

Mortuary management systems

FuneralTech software

3

 DECISION

## Determine embalming requirement

Workflow branches based on whether embalming is required due to family wishes, viewing plans, or regulatory requirements. Routes to appropriate preparation track.

FuneralTech software

4

 ACTION

## Schedule preparation room availability

System checks preparation room schedules and mortician availability. Automatically reserves appropriate time slots based on service complexity and timing requirements.

FuneralTech software

Mortuary management systems

5

### Generate preparation work orders

Creates detailed work orders for morticians including specific preparation instructions, timeline requirements, and safety protocols. Updates accounting system with service costs.

Funeral home accounting systems

6

ACTION

### Send family timeline notification

Automatically notifies family with sensitive communication about preparation timeline and next steps. Coordinates with viewing and service scheduling.

FuneralTech software

7

OUTPUT

### Complete scheduling confirmation

Finalizes all preparation scheduling with confirmed timelines, assigned staff, and updated family notifications. System provides completion confirmation to funeral directors.

Mortuary management systems

FuneralTech software

## Outputs

- Confirmed preparation room schedule
- Generated mortician work orders
- Family timeline notification sent
- Updated service cost tracking

## Key Metrics

- Preparation scheduling accuracy rate
- Average time from intake to preparation start
- Family communication response time

## Tools & Integrations

- Mortuary management systems
- FuneralTech software
- Funeral home accounting systems
