WORKFLOW TRIGGER

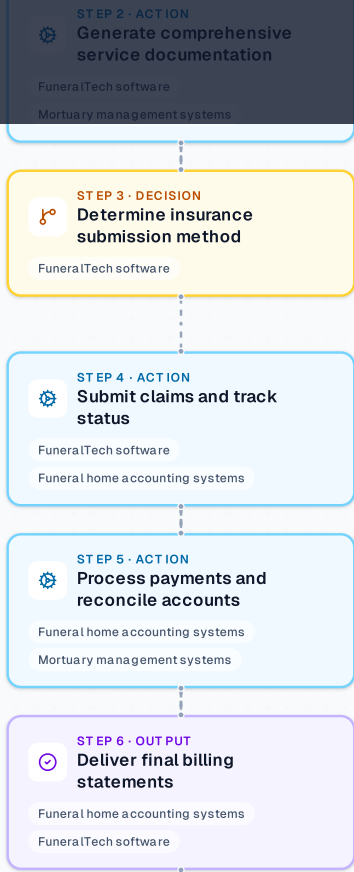

Family completes funeral service arrangements and provides insurance policy information

Visual Flow

Each node represents an automated step. Connections show how data and decisions move through the workflow.

Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

⚡ TRIGGER

Receive insurance policy details

Family provides insurance policy numbers, carrier information, and beneficiary details during arrangement conference. System captures and validates all required insurance documentation.

2

 ACTION

Generate comprehensive service documentation

System compiles all funeral service details, itemized costs, and required forms into insurance-compliant documentation packages. Creates both digital and physical copies for submission.
