Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

⚡ TRIGGER

Initiate cleaning schedule assessment

System triggers based on daily timer or when usage sensors detect high customer traffic requiring immediate sanitization. Collects current status from all connected locations.

SpeedQueen Connect

Huebsch Command

2

 ACTION

Gather equipment usage data

Retrieves washing machine cycle counts, dryer usage hours, and customer traffic data from the past operating period. Identifies high-touch areas and heavily used equipment requiring priority cleaning.

Wash Tracker

Continental Laundry Systems

3

 DECISION

Evaluate cleaning priority levels

Analyzes usage data against predefined thresholds to determine if immediate deep cleaning, standard sanitization, or routine maintenance cleaning is required. Routes workflow based on priority level determined.

SpeedQueen Connect

4

 ACTION

Generate location-specific cleaning schedules

Creates customized cleaning tasks for each location based on their specific usage patterns, equipment types, and local health regulations. Assigns optimal time slots to minimize customer disruption.

Huebsch Command

Dexter Connect

5

Dispatch cleaning notifications and lockouts

Sends cleaning assignments to staff mobile devices and temporarily locks affected equipment from customer use during sanitization periods. Updates location status displays for customers.

LaundryPay

Wash Tracker

6

ACTION

Monitor cleaning completion status

Tracks cleaning task completion through staff check-ins and equipment sensor verification. Validates sanitization protocols were followed according to health department standards.

Continental Laundry Systems

SpeedQueen Connect

7

OUTPUT

Generate compliance and efficiency reports

Produces detailed cleaning logs for health inspection compliance and operational efficiency metrics. Updates equipment availability status and schedules next cleaning cycle.

Huebsch Command

Dexter Connect

Outputs

- Health compliance cleaning logs
- Equipment sanitization certificates
- Staff cleaning task assignments
- Customer service disruption notifications

Key Metrics

- Cleaning schedule adherence rate
- Average equipment downtime for sanitization
- Health inspection compliance score
- Customer satisfaction during cleaning periods

Tools & Integrations

- SpeedQueen Connect
- Huebsch Command
- Continental Laundry Systems
- Dexter Connect
- Wash Tracker
- LaundryPay
