## WORKFLOW TRIGGER

Customer brings item to pawn shop counter for evaluation

## Visual Flow

Each node represents an automated step. Connections show how data and decisions move through the workflow.

## Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

⚡ TRIGGER

### Customer presents item

Customer arrives with item for pawning or selling. Staff initiates intake process in the system.

PawnMaster

2

## Capture item documentation

Photograph item from multiple angles and record serial numbers, brand, model, and condition details. Create digital record with customer ID verification.

PawnSnap

PawnMaster

3

⚙️ ACTION

## Authenticate item legitimacy

Cross-reference serial numbers against stolen property databases and verify authenticity using brand-specific validation tools.

Data Age Business Systems

PawnMaster

4

🔗 DECISION

## Evaluate authentication results

Determine if item passes authentication checks and stolen property screening. Branch workflow based on results.

Data Age Business Systems

5

⚙️ ACTION

## Generate automated pricing

Calculate fair market value using AI-powered pricing algorithms based on item category, condition, and current market data.

Moneywell

PawnMaster

6

### Update inventory system

Add authenticated item to active inventory with photos, pricing, and compliance documentation. Generate item tags and tracking numbers.

Pawn Partner

PawnMaster

7

⌂ OUTPUT

### Complete intake documentation

Generate pawn ticket, loan agreement, or purchase receipt with all regulatory compliance information and customer signatures.

PawnMaster

Data Age Business Systems

### Outputs

- Digital item record with photos and authentication
- Automated market value assessment
- Compliance-ready pawn ticket or receipt

### Key Metrics

## AI Business OS

- Item authentication success rate
- Average intake processing time
- Pricing accuracy vs market value

### Tools & Integrations

- PawnMaster
- PawnSnap
- Data Age Business Systems
- Moneywell
- Pawn Partner

Actionable AI implementation strategies for  
**AI Business OS** ready to transform their  
operations.
