WORKFLOW TRIGGER

Customer submits loan application with collateral item at pawn shop counter

Visual Flow

Each node represents an automated step. Connections show how data and decisions move through the workflow.

Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

⚡ TRIGGER

Capture loan application details

Customer information, loan amount requested, and collateral item details are entered into the system. Initial data validation and customer identification verification occurs.

2

 ACTION

Assess collateral item value

AI-powered valuation system analyzes the collateral item using image recognition and market data. Current market prices and condition factors determine accurate item value.

PawnSnap

Data Age Business Systems

3

 ACTION

Verify customer eligibility

System checks customer credit history, previous loan performance, and regulatory compliance requirements. Identity verification and fraud detection algorithms run automatically.

PawnMaster

Moneywell

4

 DECISION

Evaluate loan approval criteria

Automated decision engine compares loan amount to collateral value and assesses customer risk profile. System determines if loan meets approval thresholds or requires manual review.

Moneywell

Bravo Pawn Systems

5

 ACTION

Generate loan documentation

System creates loan agreement, pawn ticket, and regulatory compliance forms with all required terms. Digital signatures are captured and legal disclosures are provided.

PawnMaster

Bravo Pawn Systems

6

 ACTION

Process fund disbursement

Approved loan funds are prepared for disbursement via cash or electronic transfer. Inventory system records collateral item and assigns tracking number.

Moneywell

Data Age Business Systems

7

 OUTPUT

Complete transaction and notifications

Final loan documents are provided to customer with payment schedule and redemption terms. System updates customer records and sends confirmation notifications.

PawnMaster

Bravo Pawn Systems

Outputs

- Approved loan with disbursed funds

- Completed pawn ticket and loan agreement

AI Business OS

Key Metrics

- Loan approval rate
- Average processing time
