WORKFLOW TRIGGER

Equipment rental request is submitted through studio booking system

Visual Flow

Each node represents an automated step. Connections show how data and decisions move through the workflow.

Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

Rental request submitted

Client or photographer submits equipment rental request through the studio management system. Request includes item details, rental duration, and pickup/return dates.

Tave Studio Manager

2

 ACTION

Check equipment availability

System queries current inventory database to verify requested equipment is available for the specified rental period. Cross-references existing bookings and maintenance schedules.

Tave Studio Manager

3

 DECISION

Evaluate equipment status

Determines if equipment is available, already rented, or requires maintenance. Routes workflow based on availability status.

Tave Studio Manager

4

 ACTION

Generate rental agreement

Creates rental contract with terms, pricing, and return conditions. Sends agreement to client for digital signature and payment processing.

Tave Studio Manager

5

Schedule return monitoring

Sets automated reminders for rental return date and creates overdue alerts. Tracks equipment location and usage throughout rental period.

Tave Studio Manager

6

ACTION

Process equipment return

Records equipment condition upon return and updates inventory status. Processes any damage fees or late return charges automatically.

Tave Studio Manager

7

OUT PUT

Update rental records

Finalizes rental transaction in studio management system and updates equipment availability for future bookings. Generates rental completion report.

Tave Studio Manager

Outputs

AI Business OS

- Equipment rental agreement
- Automated return reminders
- Rental completion report
- Updated equipment availability status

Key Metrics

- Equipment utilization rate
- On-time return percentage
- Rental revenue per item

Tools & Integrations

- Tave Studio Manager

AI Business OS

Actionable AI implementation strategies for business leaders ready to transform their operations.
