WORKFLOW TRIGGER
Monthly compliance reporting deadline approaches (7 days prior)

Visual Flow

Each node represents an automated step. Connections show how data and decisions move through the workflow.

Step-by-Step Breakdown

Detailed explanation of each automated stage in the workflow.

1

Compliance deadline notification triggered

System automatically detects upcoming monthly environmental compliance reporting deadline. Initiates data collection and report generation workflow.

AMCS Platform

2

 ACTION

Aggregate operational data collection

Pulls comprehensive waste collection metrics, route emissions data, and facility operations logs from integrated systems. Consolidates all environmental impact measurements from the past reporting period.

AMCS Platform

Fleetmatics

RouteOptix

3

 ACTION

Calculate emissions and impact metrics

Processes collected data to compute carbon emissions, fuel consumption, waste diversion rates, and other regulatory metrics. Applies standardized environmental calculation formulas.

AMCS Platform

Fleetmatics

4

 DECISION

Validate compliance threshold requirements

Checks if calculated metrics meet all regulatory standards and emission limits. Determines if any violations or exceptions need special handling in the report.

5

 ACTION

Generate regulatory compliance reports

Creates formatted compliance reports for environmental agencies including EPA forms, local permits, and sustainability metrics. Populates all required regulatory templates with calculated data.

AMCS Platform

WasteWORKS

6

 ACTION

Submit reports to authorities

Automatically files completed compliance reports with appropriate environmental agencies and regulatory bodies. Sends internal notifications to compliance managers with submission confirmations.

AMCS Platform

WasteWORKS

7

 OUT PUT

Archive compliance documentation

Stores completed reports and supporting documentation in compliance database for audit trails. Updates compliance calendar with next reporting deadlines.

AMCS Platform

WasteWORKS

Outputs

- EPA compliance reports
- Carbon emissions documentation
- Waste diversion rate reports

Key Metrics

- Compliance submission accuracy rate
- Report generation time
- Environmental violation incidents

Tools & Integrations

- AMCS Platform
- Fleetmatics
- RouteOptix
- WasteWORKS
